Newton-Raphson residual comparison: inertia (term m1*c1) regularises the non-monotonic static residual
Static: residual(u1) per increment + NR iterates
Static residual R(u1) [N]
u1 [mm]
increment 47 (u2 = 0.5423 mm): 34 iterations
Dynamic: residual(u1) per time step + NR iterates
1e6
Dynamic residual R(u1) [N]
u1 [mm]
time step 1966 (u2 = 0.5436 mm): 3 iterations
